Reform UK want to take away your rights

If they win power, they have committed to:

- scrap your statutory sick pay
- cut public sector pensions
- slash spending on public services
- bring back exploitative zero hours contracts
- make it harder for you to be represented by a union

What can you do?

UNISON
the public service union

Vote against Reform UK in local and national elections.
Find out if there's an election coming up near you
